

## Bailey Bridge 61m Heavy Load Capacity BS5400 Galvanized Surface Finish Long Span

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Tongkai
- Certification: ISO, EN1090, SGS, CIDB
- Model Number: TKB450
- Minimum Order Quantity: 1 set
- Price: 1500USD ~2000USD/ton
- Packaging Details: Nude and Steel case
- Delivery Time: 15~45days
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 3000/month

### Product Specification

- Model: TKB450
- Span: Upto 76m
- Net Width: 3.15m, 4.2m, 7.35m, 10.5m
- Surface Finish: Painted Or Galvanized
- Footway: 1m, 1.2m, 1.5m
- Deck: Anti Skid Steel / Aggregate
- Material: S460J0, S355JR, S355J0, Gr65, Gr50
- Load: HA, HB, HA+20HB AASHTO HL-93, HS35-44
- Ramp: 6m, 9m, 12m
- Highlight: **BS5400 Bailey Bridge,  
Heavy Load Capacity Bailey Bridge,  
Long Span Bailey Bridge 61m**

## Product Description

Bailey Bridge 61m/76m Heavy Load Capacity BS5400 Galvanized Surface Finish Long Span High Quality

### Product Description:

The Bailey Bridge comes in a variety of surface finishes including painted or galvanized. This ensures that it can withstand harsh weather conditions and last for a long time. The bridge is available in span lengths of up to 76meters, making it suitable for a wide range of applications.

The Bailey Bridge also features a footway that comes in three different sizes: 1m, 1.2m, and 1.5m. This allows for safe pedestrian access across the bridge. The bridge is available in four different colors: green, grey, orange, and red. This makes it easy to customize the bridge to fit the specific needs of the project.

The Bailey Bridge is an ideal solution for emergency situations where a bridge needs to be quickly constructed to restore access. It is also suitable for military operations where a temporary bridge is needed to support the movement of troops and equipment. The compact design of the bridge allows for easy transport and assembly, making it an ideal choice for remote locations.

In summary, the Bailey Bridge is a versatile and reliable solution for temporary or permanent bridge construction. Its ability to support a wide range of loads, availability in different surface finishes and colors, and its footway options make it suitable for a wide range of applications. The Cb-40 Bridge, Compact Panel Bridge, and Military Bridge System is a cost-effective solution that can be quickly assembled in the field, making it an ideal choice for emergency situations and military operations.

### Features:

Product Name: Bailey Bridge

Color: Green, Grey, Orange, Red

Deck: Anti skid aggregate

Ramp: 6m, 9m, 12m

Footway: 1m, 1.2m, 1.5m

Span: upto 76m

Similar products: Acrow Bridge, Compact Panel Bridge, Acrow Bridge

### Technical Parameters:

Product Attribute	Options
Manufacturer	Mabey Bridge
Product Name	Steel Bailey Bridge(TKB450)
Footway	1m, 1.2m, 1.5m
Lane	Single lane 3.15m~4.2m, Double Lane 7.35m, Three Lane 10.5m
Material	S460J0, S355JR, S355J0, Gr65, Gr50
Net Width	3.15m, 3.6m, 4.2m, 7.35m, 10.5m
Ramp	6m, 9m, 12m
Span	Up to 76m
Load	HA, HB, HA+20HB, AASHTO HL-93, HS35-44
Deck	Anti skid steel/aggerates
Surface Finish	Painted or Galvanized
Color	Green, Grey, Orange, Red

### Applications:

Tongkai is a well-known brand in the bridge industry, and their product, the Bailey Bridge, is a popular choice for temporary or permanent bridges. Model numbers ZB200/TK200/TKB450/Compact 200 are versatile and can be used in various applications. These bridges are certified with ISO, EN1090, SGS, and CIDB, which ensures they meet the highest standards of safety and quality. They are manufactured in China and have a minimum order quantity of 1 set, with a price range of 1500USD to 2000USD per ton. The payment terms accepted are L/C, T/T, Western Union, and MoneyGram, with a supply ability of 3000t per month. The delivery time ranges from 15 to 45 days, and the packaging details are nude and steel case.

The Bailey Bridge has a net width of 3.15m, 3.6m, 4.2m and 7.35m, and comes in four different colors: green, grey, orange, and red. It also has ramp length of 6m, 9m, and 12m. The materials used for these bridges are S460J0, S355JR, S355J0, Gr65, and Gr50. They also come in various lane sizes, such as a single lane of 3.15m to 4.2m, double lane of 7.35m, and three lanes of 10.5m.

The Bailey Bridge is a modular panel bridge that is easy to assemble and disassemble. It can be used for a wide range of applications

such as emergency response, military operations, construction sites, and rural infrastructure development. They are also suitable for use as a permanent bridge in areas with low traffic volume. These bridges are designed to be durable and can withstand harsh weather conditions and heavy loads.

The Bridge is a type of Bailey Bridge that is commonly used in military applications. It is a lightweight, portable bridge that can be assembled quickly and easily. The Bridge is designed to support tanks and other heavy military vehicles, making it ideal for military operations in remote areas.

The Panel Bridge is another type of Bailey Bridge that is commonly used in emergency response situations. It is a prefabricated bridge that can be assembled quickly and easily, making it ideal for use in disaster relief efforts. The Panel Bridge is designed to be lightweight and portable, making it easy to transport to different locations.

Overall, the Bailey Bridge is a versatile and durable bridge that can be used in a wide range of applications. With its modular design and easy assembly, it is the ideal choice for emergency response, military operations, construction sites, and rural infrastructure development.

## Support and Services:

The Bailey Bridge is a modular steel bridge that is designed for rapid assembly and disassembly, making it ideal for emergency situations and temporary crossings. Our product technical support and services for the Bailey Bridge include:

- Engineering assistance to ensure proper installation and safe usage of the bridge
- Customized design and fabrication services to meet specific project requirements
- On-site training for assembly and disassembly
- Maintenance and repair services to keep the bridge in optimal condition
- Technical documentation and manuals to aid in installation and usage
- 24/7 customer support to address any questions or concerns

## Packing and Shipping:

Product Packaging:

The Bailey Bridge product will be packaged in strong wooden crates which will provide adequate protection to the product during transportation. The crates will be sealed and labeled with the necessary product information for easy identification.

Shipping:

The Bailey Bridge product will be shipped via sea or air freight depending on the customer's preference and location. The shipping will be arranged by our team and the customer will be provided with the necessary tracking information to monitor the progress of the shipment.

## FAQ:

**Q: What is the brand name of this bridge?**

A: The brand name of our bridge is Tongkai.

**Q: What is the model number of this bridge?**

A: The model numbers of our bridge are ZB200, TK200, TK250, TK450 and Compact 200.

**Q: What certifications does this bridge have?**

A: Our bridge has ISO, EN1090, SGS, and CIDB certifications.

**Q: What is the minimum order quantity for this bridge?**

A: The minimum order quantity for our bridge is 1 set.

**Q: What is the price range for this bridge?**

A: The price range for our bridge is between 1500USD to 2000USD per ton.

**Q: What are the payment terms for purchasing this bridge?**

A: The payment terms for purchasing our bridge are L/C, T/T, Western Union, and MoneyGram.

**Q: What is the supply ability of this bridge?**

A: Our bridge has a supply ability of 3000 sets per month.

**Q: What is the estimated delivery time for this bridge?**

A: The estimated delivery time for our bridge is between 15 to 45 days.

**Q: What are the packaging details for this bridge?**

A: The packaging details for our bridge are nude and steel case.
