## Product Description

### Product Description:

Based on the tried-and-tested ZB200/TK250, the Logistic Support Bridge"(LSB")is used by military forces around the world.

The LSB" is quick and simple to erect, uses fully interchangeable standard components, and can carry the heaviest military and civilian vehicles.

The LSB" can carry a main battle tank at Military Load Class 80 Tracked (MLC 80T) across a clearspan of 60m and the same tank on its transporter at Military Load Class 110 Wheeled (MLC 110W) across a clear span of 51m.

### Features:

Unrivalled military bridge system

Ideally suited for upgrading main supply routes or rapid replacement of weak or damaged civilian bridges

Supports the heaviest military loads and all types of normal civilian traffic

Roadway width 4.2m; bridge length from 9 to 60m; can include footways

Used to replace assault and general support bridges

Provides long span floating bridge capability

Adjustable ramps allow access for all civilian and military vehicles

### Support and Services:

Our Bailey Bridge product technical support and services include:

- Assistance with installation, operation, and maintenance of the bridge
- On-site training for bridge assembly and disassembly
- Technical consultation for bridge design and customization
- Troubleshooting and repair services
- Parts and components replacement

### Packing and Shipping:

Product Packaging:

Steel components packaged in wooden crates

Fasteners and small parts packaged in plastic bags

Assembly instructions included in each crate

Shipping:

Shipped via container or flatbed truck

Shipping costs calculated based on distance and weight

Delivery time varies depending on location

### FAQ:
